

Wired and Wireless Connectivity Solutions for High-Speed Internet Access

TeleAdapt is the industry leader in HSIA guest connection point solutions for the hospitality and commercial property markets throughout the world. The TeleAdapt DeskHub® product line addresses the laptop user's expectation of a simple and reliable high-speed Internet connection while providing added value to the property's broadband investment.

The TeleAdapt DeskHub® product line of wired and wireless HSIA guest connection points makes connecting to the property's existing network infrastructure straightforward, guest-friendly and trouble-free. TeleAdapt offers hotels and commercial property owners the tools required to make visitors productive in their "office away from home."

From the Pull-Through Access Point™ providing basic cable management to the DeskBridge® offering RJ45 access in Wi-Fi only environments, TeleAdapt has an innovative and elegant solution to meet the requirements and budget of any property.

TeleAdapt's HSIA connection hubs are ideal for guest access regardless of the back-end technology and are suitable for all Ethernet and DSL cable modem installations. DeskHubs® are designed with the service provider, HSIA network installer, hotelier and mobile laptop user in mind.

TeleAdapt works with major hotel groups and installers internationally to enable the delivery of visually appealing, high-tech solutions for guest use. Let us help you leverage your broadband amenity by providing simpler connections, powerful branding opportunities, cable management, security solutions, increased revenues and a positive and productive experience for laptop users.

We are a global company with more than 11 years experience in supplying connectivity products to major PC manufacturers. Over the last 3 years, TeleAdapt has developed the DeskHub® line specifically for the hospitality and commercial markets, with installations in many of the world's premier hotels, resorts and conference centers. TeleAdapt continues to develop innovative connectivity solutions, including audio/visual hubs, allowing guests' personal music and video devices to interact with in-room entertainment systems.

Our Hospitality Sales Team is strategically placed to provide global sales support to System Integrators, HSIA Providers, Installers and the Hospitality Industry. When planning your property's current and future HSIA presentation, please contact us to discuss which DeskHub® product is the best fit for your installation.
