

Revenue Generating Retail Product Range for Hotels, Gift Shops, Airlines, Duty Free and Travel Retail

Mobile Pro™ is TeleAdapt's Airline, Duty Free and Travel Retail product range. It consists of a variety of power and telephone/modem adapters, USB and wireless accessories and technology gadgets. The range offers travellers the tools to make them more productive away from home.

Today's travellers often spend more time at the airport than they do in the air. This idle time can generate revenue for the savvy retail manager. Offering customers a smaller, more attractive and efficient version of items currently stuffed into their carry-on luggage, or often left behind, can build substantial income for even the smallest kiosk.

When developing the Mobile Pro™ range, TeleAdapt has taken into account the specific requirements of each market. For Airline Inflight sale, the packaging is compact to maximise trolley capacity. For Duty Free and Travel Retail sale, the products are available boxed and in blister packaging.

All Mobile Pro™ products offer good margins and are competitively priced. TeleAdapt products can be found onboard many airlines and in Duty Free and travel retail stores worldwide.

For hospitality properties, TeleAdapt's Mobile Pro™ line helps increase in-room revenue by providing guests with new and replacement items they need. These products become treasured accessories if branded with a property's logo and location. Convention centres and hotel business centres can increase their retail profits by offering Mobile Pro™ to their customers.

If it's customized goods you're after, TeleAdapt can deliver. We can make to precise specifications at a competitive cost and our global network of product sources and development facilities can deliver to required deadlines.

TeleAdapt has more than 10 years experience in supplying connectivity products to major retailers and airlines worldwide. Whether in-room, onboard, in airport shops or high street retailers, the Mobile Pro™ line fits consumers' needs and retailers' requirements.

When you are planning your product range we would welcome your ideas and requirements. TeleAdapt's sales team is strategically placed to provide global sales and support to Hospitality, Airline, Duty Free and Travel Retail markets.
